## Here's Honey Savings to You!

Our honey harvest season, July, August, and September, is a most excellent time to make your large purchase of honey for your year's supply

**Please allow us to explain:**

For the most part Turtlebee honey is sold on a sliding scale. The heavier the weight the less cost per pound. Many of our customers like to take advantage of our volume discount purchasing

**Example:** 1 gallon (12#) honey would cost \$37.25. 3 quarts (12#) would cost \$49.00. One might say "I prefer the smaller 3# quart size container, but like the large size price." **Turtlebee's Suggestion**

for this dilemma is purchasing your year's supply in large containers and reducing into smaller containers at home. Many people do not know that you can put those containers in your deep freeze which will suspend the crystallization process.

**To take the savings even farther,** when any of

our containers are returned, your next purchase is less 10% of the purchase price. **Do you want to save even more**

and at the same time be environmentally friendly

The most effective type of recycling is reusing. Bring us your empty Turtlebee labeled containers for immediate refills at a 15% discount or any container that you have where the volume can be determined. **Call for more details**

## HIVE PACKAGES & BEES

Good, solid-commercial, quality woodenwares. The most important thing to point out is that our honeycombs and wares have never been exposed to any miticides. And we only use antibiotics as needed in the off-season when the surplus nectar is not flowing. This is a good thing!

We have done our best to single out the most useful & requested types of Beehive Packages.

Although when it comes to the honeybee, "the sky is the limit." The same goes for Turtlebee Farms' Hive Packages. We can customize any sort of variation to meet your needs from equipment to services provided.

The list of contents is quite exhaustive, enabling the novice to properly manage his/her colony for honey production or pollination. **Please notice** that we include a one-year warranty in this package.
